

REDTOP FLY CATCHER

BAG AND CUP TRAPS

REDTOP FLY CATCHER is a non-toxic attract-and-trap mechanism for managing various fly pests including house flies, horse flies and fruit flies.

PRODUCT SPECS

Active Agent Reusable and Disposable baited fly trap system
Agent Type Fly Trap

PRODUCT USES

- › House flies
- › Sciarid flies
- › Fruit flies
- › Horse flies

REDTOP FLY CATCHER traps use non-toxic bait to attract adult flies into the trap through the top turret where they enter the bag and become trapped.

DESCRIPTION

REDTOP FLY CATCHER is an outdoor hanging attract-and-trap system for the management of a wide variety of fly pests. These traps are well suited to be used as part of an IPM program for trapping flies.

REDTOP FLY CATCHER is available as a Bag Trap (left) or Cup Trap (right).

MODE OF ACTION

REDTOP FLY CATCHER traps are placed outdoors near areas affected by flies where they attract-and-trap the flying adults in water at the bottom of the bag. Each bag can trap up to 20,000 adults and each bait lasts between 6-8 weeks. Reusable bags are available which can be cleaned and reused.

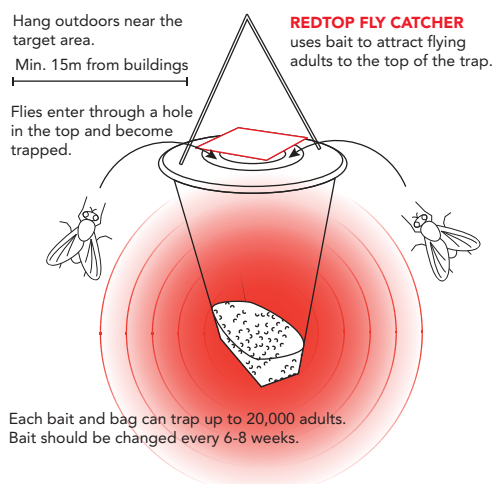

Fig. Fly Catcher mode of action.

ADVANTAGES OF REDTOP FLY CATCHER

- High catch capacity, up to 20,000 flies.
- Re-usable options available.
- Lasts up to 8 weeks.
- Non-toxic bait.
- Avoids spraying potentially hazardous chemicals near buildings and people.
- Environmentally friendly and food safe method.
- Suitable for use on farms, for canteens, at home, in dairies, ranches and stables.
- Easy to set up and remove.

INSTRUCTIONS

1. Remove the red top from the dish then carefully unfold the bag. Straighten the mesh cone and ensure the small hole is open.
2. Add the bait to the bag and add 1 litre of luke warm water. If the solution appears cloudy, allow to stand for 24 hours.
3. Replace the red top on the dish and lock in place.
4. Hang outdoors at least 15m away from buildings, in an area with good sunlight.
5. When the trap is full or no longer effective, wrap in a suitable bag and dispose.

NB: Do not use indoors.

RATE SCHEDULE

	Spacing m	Interval (weeks)	Frequency
Buildings	10m	6 - 8	As needed
Chickens, Cows, Horses	10m		
Pigs	20m		

STORAGE

Storage temp.	Room temp
Conditions	Dark and dry
Max storage time	12 months

Do not freeze. Store unopened.

PACKAGING

Quantity	1x disposable/reusable trap
